Dangerous Prayers dot Org is the community of people who want to have an encounter with God through Jesus Christ.

It was born out of radical passion for showing the people, who have not been able to make significant breakthrough in their prayers, the keys to getting their supplications answered and yielding desired results by using biblical navigator.

Prayers on this portal have worked for us and others couldn't keep quiet but to share in amazement of what God has done and still doing through Dangerous prayers.

God that answers by fire is still alive, your getting here provides you the opportunity to kick the ass of the bastard "Devil" who has been inflicting so much pain on you. Get yourself up, shake your body and dust off their darts, and knock them down right away with Dangerous Prayers..
